Dear Mr. Bunting:

Your VPDES permit is enclosed. This permit supersedes the previous VPDES Permit VA0091511 issued to this facility. As indicated in the fact sheet, your permit has changed. Please read it carefully as you will be responsible for compliance with all permit conditions. A hard copy Monitoring Report (MR) has been included as an attachment to your permit. The first MR required by this permit for monthly monitored parameters is due no later than July 10, 2012 for the period of June 2012. The first MR required by this permit for quarterly monitored parameters is due no later than October 10, 2012 for the period of July 1, 2012 through September 30, 2012. The first MR required by this permit for annually monitored parameters is due no later than July 10, 2013 for the period of June 1, 2012 through May 31, 2012. The first MR required by this permit for once per five (5) years monitored soil parameters is due no later than July 10, 2016. If you still have data to report as required by the previous permit, please submit it as an attachment to the first MR required by this permit. Monitoring results on the MRs should be reported to the same number of significant digits as are included in the permit limit for the parameter.
